

# Bloomington Democrat.

## LOCAL DEPARTMENT.

Wednesday, March 27, 1867.

We will thank our readers for all local contributions to our columns. If they are not too late, we will be glad to publish them. We will be glad to publish them. We will be glad to publish them.

We are busy engaged in making out bills of subscription and advertising. We are busy engaged in making out bills of subscription and advertising. We are busy engaged in making out bills of subscription and advertising.

The accounts of the firm, only, on the south side of the river, are left with the following persons, to whom prompt payment is requested:

Mifflin Township.—JOHN H. HETLER; SAMUEL CRESAY.

Beaver.—BENJ. ZIMMERMAN, Post Master.

Mainville.—C. J. CAMPBELL, Post Master.

Catawissa.—STEPHEN BALDY.

Rosiergorek, Catalina, and Ashland.—JOHN HARNER.

All mistakes that may have happened, if any, in making up the accounts, can and will be promptly corrected upon calling our attention to the matter.

The Court advertisements will appear in our next. The Jurors were drawn too late for this week's DEMOCRAT.

The Wilkesbarre papers highly compliment the Berwick Cornet Band which was filling an engagement at that place not long since.

Fresh arrival of Dry Goods and Groceries at A. Hartman's Store, opposite the Episcopal Church. Also, Notions, Boots and Shoes.

The young folks of this place enjoyed themselves in a grand quadrille and dress ball, in Snyder's Hall, on Friday evening last. It is said to have been a fine affair.

There is a bill before the Legislature authorizing the creation of a Poor House for Bloom Township. Henrick Township has notice asking legislation in the same direction.

Simon C. Shive is converting the front rooms in his frame house into an office and store rooms, for C. C. Marr of this place. He proposes to put in a large glass open front. Up town ahead! The place to buy cheap goods, and get neat printing done.

We notice among the late confessions by the Senate the name of Mr. PETER PUSKEL of Wilkesbarre as Postmaster. He is a Democrat. Another set-back to the Radicals. Serves them right. Mr. PUSKEL formerly lived in Columbia County.

The German Reformed Congregation have purchased a new bell for their church at this place. This congregation have one of the finest churches in the County. There are very few if any churches in this section that have a better sounding bell, although some of them sound louder.

Those persons desirous of taking out hotel licenses should attend to the matter at once as the time is short. The application is required to be published in two newspapers at least four weeks before Court. We have an excellent quality of blank petitions and bonds on hand which we will sell cheap. All orders for blanks by mail or otherwise will be promptly attended to.

The editor of the Republican speaks of a "contest between the DEMOCRAT and the Columbian." It would require the combined powers of the exceedingly astute and visual organs of the Doctor, and the powerful combinations of the Kaleidoscope, over when and where any contest between two journals has occurred. The Democrat is a good bottle holder, and the Columbian is a large capacity. The Democrat is a large capacity, and the Columbian is a good bottle holder.

It is the time is approaching when our columns will be largely occupied by candidates and communications, we wish to state that we will adhere to the old custom of publishing the usual standing card for three dollars, and communications setting forth candidates' claims more fully at two dollars for seventy-five words for three times and for a shorter or longer time at proportionate rates. We desire the cash to accompany the order in every case as debts of this kind are not only hard to pay after the election but hard to collect.

On Monday of last week a stanger came to town, representing himself as a horse dealer, wishing to purchase about fifteen or twenty head. Accordingly bills were printed and posted, requesting those having horses to sell to bring them to the 'Exchange' by Saturday. Upon the strength of this proceeding, Mr. Reiswick, liveryman at this place, hired him two horses and buggy to go to Millville, as he said, to look at some horses, taking with him a boy, whom he left at the Half-Way House to await his return. The boy having remained where he was left for nearly one day and a half, became uneasy and returned to Mr. Reiswick, reporting what had happened him. On Wednesday morning last Mr. Reiswick started in pursuit of the villain, but as yet we have not learned of the recovery of the horses or capture of the scoundrel.

## Congressman Menon has our thanks for a copy of somebody's printed speech.

The Pennsylvania Legislature passed a joint resolution fixing the time of final adjournment on Thursday, the 11th of April next.

The Spaulding Brothers, "Swiss Bell Ringers," gave an entertainment in Snyder's Hall, to a large audience on Saturday evening last.

In another column of to-day's paper will be seen the appointments made in the M. E. Conference for this (Northumberland) district. They will interest many of our readers.

Our friend John K. Gorton has gone to Philadelphia to lay in his Spring stock of groceries, notions, &c. Look-out for a large and excellent assortment, to be sold at reduced prices.

Arthur's Home Magazine for April is upon our table. It is a handsome number; the illustrations being very fine, and the reading most excellent. As a literary Magazine it has no superior.

Thousands have been changed by the use of the Peruvian Syrup (a protoxide of Iron) from weak, sickly, suffering creatures, to strong, healthy and happy men and women, and cannot reasonably hesitate to give it a trial. For Dyspepsia and Debility it is a specific.

Frank Leslie's Magazine for April is out in charming covers, assuming an interesting and attractive air. The ladies are agreeably surprised to find this *Gazette of Fashion* containing fashions beyond their anticipations and far ahead of what was promised. The pattern plates in the present number are not equalled by any of its contemporaries. Send and get it. Price \$3.00.

POWDER MILL EXPLOSION.—On Tuesday last, our citizens experienced the sensation of two shocks in quick succession, resembling slight earthquakes. A few moments afterwards a cloud of smoke was seen rising in the direction of the Wopwallowen Powder Mills. In the evening of the same day we learned that two of the Dry houses had blown up, killing one man by the name of Evan Davis.—*Berwick Gazette.*

**A Request to Subscribers.**  
Subscribers to the DEMOCRAT are particularly requested not to allow their indebtedness to overrun one year. All subscriptions should be paid in advance; but under no consideration should the year pass around with the subscription unpaid. A strict attention to this will save us an immense amount of trouble and a very heavy loss.

**Dedication.**  
The Dedication of the Building of the Bloomington Literary Institute will take place on the afternoon and evening of April 3d. Eminent speakers are expected, and the students will give an exhibition consisting of declamations, essays, colloquies, and music. The stockholders and public are invited to attend.

Ben. Butler has a bill before the Rump House empowering the military to "trap" to assess and collect from wealthy rebels such sums as are necessary to prevent the disloyal poor from suffering." Of course if there is any stealing and robbing to be done (and a bill of this sort is nothing else) Ben is the fellow to have a hand in it.

E. B. Hull, of Berwick, Agent for the sale of Doty's Clothes Washer and the Universal Clothes Wringer, advertises in to-day's paper these machines. From what we know of them, they are the best invent- ed. Their construction is simple, and the price of them is within the reach of all persons of moderate circumstances. Every family should have both the Washer and the Wringer. See advertisement.

**BLANKS.**—Petitions and Bonds for Tavern Licenses; Summons, Subpoenas and Executions; Blank School Orders; Bonds for School Treasurers, Overseers of the Poor and Collectors; Blanks for Constables' sales; Petitions for Naturalization; Blanks for Justices in Attachment cases; Notices for Road Views; Blank Notes for Venduees, and other Blanks; all of which can be had on reasonable terms and in quantities to suit purchasers.

The *Germanian Telegraph* is the best weekly newspaper published in the city of Philadelphia for the farmer. Its editorials, communications, and selections, upon the subject of agriculture, are practical, plain, and in the proper spirit. Quite a large space in each number is devoted to the farmer and gardener. It is printed upon good white paper, with medium sized clear type. Price of subscription, if our memory serves us correctly, is three dollars per annum.

The LYCOMING STANDARD, and Williamsport General Advertiser, published by our old friend Colonel LEVI L. TATE, made its appearance in our sanctum on Tuesday last. It is a very neat paper, printed upon a first-class press, with all new material, and in size considerably larger than our paper. In politics it is hardly necessary for us to state, it is Democratic, as every one knows who has had any acquaintance with its editor, Mr. TATE, that he would publish no other kind of paper. The new enterprise bids fair to be a success, if we may judge from advertising patronage displayed. The City of Williamsport, and County of Lycoming, have the patronage to warrant the publishing of all the Democratic papers appearing there, and it is hoped these journals will receive it. The fine appearance of the *Standard*, and the judicious management of the proprietor, will secure for this establishment a full share of the public patronage. Many of Mr. TATE's old friends in this County will be pleased to learn of his having again engaged in the publication of a newspaper, and will at once become patrons. We heartily wish the Colonel success, and with a half a chance he will make his paper the *Standard* bearer of the Democracy of Old Lycoming.

## The Omnibus Accommodations.

EDITOR BLOOMINGTON DEMOCRAT.—Having occasionally read in your excellent journal, something about the "Phoenix Omnibus Line," and its facilities, I take pleasure, after having enjoyed the accommodation, in speaking from experience. Mr. Jacob L. Gorton, the Proprietor of this Line, is entitled to the thanks of the public, for his untiring efforts in behalf of their accommodations. His excellent horses and elegant coaches under his polite attention and judicious management, in timely attending the arrival of all trains at the respective Stations, afford ample and satisfactory accommodations. A TRAVELER.

CHANGED.—In the place of our country being an asylum for the oppressed of all nations, it has got to be a grand lunatic asylum for crazy Abolitionists and their equally thick-skulled, woolly-pated African.—*Bellevue Watchman.*

The Michigan Democratic Convention, in session at Detroit on Wednesday last, adopted resolutions denouncing the Military Satrapy (Reconstruction) Bill and declaring the enfranchisement of the negroes and disfranchisement of the whites by Congressional action to be unconstitutional, arbitrary and revolutionary.

Chicago was in a bad way a few nights since, according to the papers. An unnatural horror threw her infant into the river; another heartless left her baby on the door-step of a citizen; a worthless fellow deserted his wife; and Wendell Phillips delivered a lecture. Enough evil for one night.

Mr. EDITOR DEMOCRAT:—I cannot forget the duty I owe to you and the public, of congratulating you upon the material improvements lately effected in the appearance of the "BLOOMINGTON DEMOCRAT." You are no old foggy, it is quite perceptible, as your ENERGY and ENTERPRISE demonstrate. Go on in your mission of making us a good, neat, and spirited Democratic organ, and your efforts will be rewarded with ultimate success. AN OLD DEMOCRAT.

**DIED.**  
In Bloomington, on the 23d inst., ALBERT SMITH, aged 25 years, 2 months and 8 days.

It is hard to meet with death in the midst of vigorous life. It is hard for parents to part with children when these children are just entering upon a career of usefulness to themselves, and the community, and are becoming a source of pride and pleasure to their friends. But Providence, for purposes of its own, and which are unknown to us, but which we know to be so proper and holy as to allow of criticism or fault-finding, sometimes makes, for us, sad intrusions on the domestic circle. This young man was yet scarcely in the prime of life. His conduct was of the most exemplary kind. No young man of Bloomington showed more industrious habits, or was more correct in his morals. He was a Christian man, and his friends have the satisfaction of knowing that his condition is not changed for the worse but for the better.

At Bloomington, on the 15th inst., Mary Jane, wife of William Garson, aged 38 yrs, 8 months and 17 days.

At the same place, on the 24th inst., infant child of Wm. and Mary Jane Garson.

In this place, on the 22d inst., Robert F. C., son of Thomas and Margaret Vanatta, aged 3 years and 6 months.

**MARKET REPORT.**  
Wheat per bushel.....\$2 80  
Rye.....1 10  
Corn.....90  
Buckwheat.....80  
Oats.....55  
Cloverseed.....7 50  
Flaxseed.....2 50  
Hemp.....20  
Potatoes.....80  
Flour per barrel.....16 00  
Butter.....25  
Lard.....14  
Hams.....15  
Shoulders.....20  
Hay per ton.....20 00

**SPECIAL NOTICES.**  
**THE SHIVERING VICTIMS OF**  
Fever and Ague, who freeze today to burn tomorrow, might have been exempted from their present trials had they availed themselves in time of that infallible and certain remedy, HOPKINS' TONIC STOMACH BITTERS. But it is too late for prevention, it is too late for cure. A single bottle of this irrefragable tonic will stop the paroxysms, and a brief course of it will restore the patient to vigorous health. The prudent and thoughtful, however, who would rather prevent disease than wait for its assaults, will resort to this sure defense against intermittent and remittent fevers at the commencement of the season when they prevail. Now is the time to form the system against fever and ague, bilious complaints and dyspepsia, diseases which are often engendered, and always aggravated, by the chills and damps of Winter and early Spring.

**SHAKESPEARE ON INTERMITTENTS.**  
The Bard of Avon tells us that the "fever in March doth march with the wind, and the wind in March doth march with the rain, and the rain in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and the moon in March doth march with the stars, and the stars in March doth march with the earth, and the earth in March doth march with the sea, and the sea in March doth march with the sky, and the sky in March doth march with the sun, and the sun in March doth march with the moon, and
